## **A message of Wisdom**

*To increase your knowledge...*

The House That Wisdom Built (THTWB) would like for everyone who has received our e-news, to take a moment of silence for themselves, and reflect back over the first time we sent the first e-news to you. Please carefully appreciate our growth and commitment in developing the communication and thought process that we have poured into this relationship.

As we continue to move forward in this 21<sup>st</sup> century, knowledge is the key component that drives wisdom. Ask yourself how much knowledge have you acquired from drinking these words of wisdom, combined with your daily life experiences?

We are in hope that you will say that we have built a family with you moving forward...

### **THTWB CEO snapshot:**

The following question has been posed to the CEO, *"What direction would you like to see our job market move towards...particularly as it relates to college students in debt without employment?"* The CEO's answer is:

**"Good question! This question requires a factual solution. One goes to college with the intent of obtaining employment once they complete their education. From the perspective of the leaders at**

**THTWB, when a student enters their junior year and declares their major, we believe that a process should be put in place that specifies employment towards graduation.**

**This simply means that the last two years of the students education, whether a bachelor, master etc., should be moving towards career employment that provides employment specificity.**

**For example, the student should be aware of the field of employment, the types of jobs they can obtain and the salary that comes with the career of choice. This will provide them with the ability to make better financial choices when it comes to student loans. All of this should be put in place by the school combined with the student's awareness, before a student graduates. The student should not be held in a financial dilemma when they are trying to make the best out of obtaining a college education, which was and should still be part of what the American Dream is about."**
